

Women And Their Zodiac Characteristics

AQUARIUS

(January 21-February 21)

Physical Appearance

- Fair, tall, elegant, beautiful inside & out and sturdy
- A charming and beautiful oval face
- The hair usually has a tinge of brown or strawberry blonde
- There may be a mole or scar on the calf muscle
- Aquarius women are attractive, graceful and courteous

Mental Attitude

- Intelligent, high IQ, you can see through the motives of a person. You have the ability to read the character of a person after a few meetings.
- Blessed with a very high level of concentration and understanding, you can easily get to the root of any problem.

General Nature

- The Aquarian woman can be quite rigid in her views. You make friends with a lot of difficulty, but once made, the friendship is sincere and forever.
- You are definitely not the kind of person who will backbite and work against your friends. True to your words and feelings, you are not only sincere in front of a person but also even in his/her absence.
- Women born under this sign are drawn to meditation. You can be a loner and may lead an almost hermit-like existence at some stages in your life.
- As an Aquarian woman, you will also have a lot of interest in the material life. You may be inclined to accumulate a lot during your lifetime. But again, the present day woman may not actually identify in total with the traits defined by the Zodiac astrology of yore.
- You are a systematic and organised worker, but a bit slow. This is because you must get to the root of the concept before embarking on anything.
- The strengths and weaknesses of an Aquarian woman are not read very easily. The world knows and understands only that what you want to make it understand!

Health

- Skin ailments, tooth troubles, tonsils and problems with leg muscles are some of the common problems women under this sign face.
- You also have to protect yourself from excessive heat and cold. Take sufficient rest and exercise for a well-toned existence.

Money

- Slow and steady in earning money, you can accumulate a lot of wealth through your talent and ambition. You will not run after wealth, but wealth shall follow you forever. You also have the ability to create organisations and develop innovative systems through which you can earn large incomes.

Romance And Sex Life

- Aquarians seek refined and intelligent partners. Quite unassuming, you are not likely to boss over your partner. In fact, being a great student of human nature you will be able to exert a lot of control on your partner.
- You learn very ingenious ways of getting to know men and can lead them on to a merry chase! This satisfies your ego. But, when you do make the final choice, it is with great care. Once you get serious with a man you will be totally devoted to him.
- You are never jealous of other women. You will seldom have time for such thoughts, but if you find him insincere you can leave him without a second thought.
- Not interested in sex for the sake of it, you can be led into it with a lot of patience.
- Aquarius women are the greatest lovers and will have a man coming back for more and more. You are fiery, passionate and the hottest lover of all the signs.
- An Aquarius woman is very true towards her lover and expects the same from him that is - total devotion. You will want to have romance in the best of the surroundings and in the most classical way. You have the capacity to seduce your man by a single glance, your power of eyes have a lot to do in romance.
- It is not for you to openly declare about being in love. You say it well through your gestures and glances. You do not need any special clothes for the occasion but shall have the capacity to achieve your ends in most ordinary clothes.
- You have the capacity of making your voice sweet and magnetic and shall be able to control the man with few words and few glances.
- It is not very easy to get you.
- Every part of your body is a hot spot for you.

Marriage

- You marry late, but divorces are very rare with Aquarian women. Your marriage will be considered as a model marriage. One, you have the ability to see through your partner and decide accordingly. Secondly, Aquarius women are very beautiful. You are endowed with a charm, which keeps your husband/lover tied down to you for eternity!
- Too many proposals, is a problem for you. Selecting the right man from out of those is even more difficult.
- You have a great caring nature and you are loyal to your husband and shall stand by him in all the problems of life. You can be a big support for him in tough times. But, as you are not known to express your feelings eloquently, your honesty may sometimes be misunderstood.
- An Aquarian can handle her home and children in the most unconventional way. You may try strange combinations and arrangements and also make them look good.
- You will be able to handle guests in a most remarkable manner and can hold forth on any subject on earth. You can converse with children as if you are one of them and you can talk to an eighty-year-old as if you are of the same age group.

Ideal Match

- Men born in Aries, Leo, Gemini and Taurus signs are the ideal matches for you.

Caution

- A mood that fluctuates more easily than the weather can be your bane! You can sink from the heights of joy to the pits of depression. When on a high, you think the world is in your pocket and that you are a winner and shall remain a winner always. When in a pensive mood, you tend to think that there is no person more wronged as you have been,

- that you do not have a future... What you do and say during these irrational phases is what puts you in deep trouble.
- You should control your moods. Keep yourself calm and do regular meditation. Develop faith in God and try to understand the law of Karma.

Lucky Days, Numbers And Colours

- Thursdays, Fridays and Tuesdays are lucky for you.
- 3, 9, 2, 7 are your lucky numbers.
- Yellow, red and white are your lucky colours.

Recommended Gemstones

- Diamond, yellow sapphire and ruby are your lucky gemstones. The stones should be of a vibrant Aura and should not have been worn before. The weight of the stone should be decided as per your body weight and age.
