

Women And Their Zodiac Characteristics

CANCER

(June 22 - July 22)

Physical Appearance

- You are generally not very tall
- The shape of your face is either oval or round
- The colour of your hair is largely brown. And, you do have a nice set of dentures
- Some of you may develop a paunch in your mid thirties.

Mental Attitude

- You can carry the masses along with you! Cancerian women are good orators and can prove to be excellent teachers, preachers and public speakers. They also possess a good memory.
- A deeper understanding of emotions and interest in poetry are common amongst Cancerian women as they are a very emotional person themselves and tend to write poetry at some stage of their life.

General Nature

- You have a very varied nature, being very timid some times and quite courageous at other. It is also not very easy to judge you or make definitive comments about your personality in one go.
- Cancerian women are sympathetic, to the extent of being over sensitive. As a result they get irritated easily. On the positive side you also have some magnetic qualities that help you have increased charisma and greater degree of fame.
- Your lord moon also gives you a keen sense of art and writing. Though it sounds quite funny, some of you can also develop psychic powers more easily than your counterparts of other signs.
- Anger and mushy feelings come to you as quickly but they also make a quick departure as well. This particular trait can make you look very strange or even queer types to the people around you.

Health

- You keep fragile to moderately good health until youth but the constitution becomes stronger as the age advances.
- The chest and stomach are two weak areas. The possible diseases are TB, asthma, gastric disturbances and weak digestion. Some of the other diseases that might trouble you are over indulgence in alcoholic drinks, excessive eating and some kind of a fear complex.

Money

- Very few Cancer born natives accumulate wealth in their early years. Being quite easy with their finances, they spend a lot on traveling and to an extent in also showing off their wealth.
- But as you reach middle age you understand the virtues of saving and then you tend to save and invest quite seriously. That leads to a comfortable later life.

Romance And Sex Life

- Cancerian women are romantic and passionate by nature. They are very sincere and devoted in their relationship with the opposite sex but are seldom understood correctly or get an equal reciprocal sincerity.
- Your ideas of love and romance come straight from the storybook and you have very great expectations from your partner.
- The area around the naval cavity is the hotspot from you.

Marriage

- For you the home is of a great consequence and family life will be very important to you. You will tend to marry early because you prefer settled life and children.
- You are sincere in marriage and devoted to the family but sometimes you tend to be overly critical and dissatisfied. This leads to an unnecessary increase in your tensions.

Ideal Match

- Your best match is with people born in Cancer, Scorpio and Pisces signs.

Caution

- Daydreaming and one-sided relationships (where one wants to take most willingly and give hesitantly) - are the peculiar problems faced by the cancer born people. You should try to correct this and also reduce the quick variations of your moods.

Lucky Days, Numbers And Colours

- Monday & Sunday are Lucky days for you.
- The numbers 2,7,9 are fortunate and
- White, Cream, Red and Yellow are your lucky colors.

Recommended Gemstones

- Pearl and Ruby are the recommended gemstones for you. The Gem should be of vibrant Aura and should never have been used before.
- The weight of the Gem will be decided as per your age and body weight.
