- You will not be cowed down by the circumstances and are well capable of holding on to your ground even in most adverse circumstances.

### General Nature

- You take a decision only after studying any problem deeply.
- A Sagi woman tends to look at the brighter side of the things and possesses good amount of self-confidence.
- She mostly acts as per her desire and is not much concerned about the results. She also has the habit of speaking, as she wants to without thinking of the impact it can have on others.
- Friendship comes easily to a Sagi woman. She can develop it in a moment and maintain it for a long period of time. You believe in fair play & justice and often fight for wronged people.
- You will work to attain new knowledge and like to pursue higher education. You like to travel and shall go on long and short journeys a number of times in your life. You will also be able to attain your goals fast but after that you tend to waste lot of your energy.
- Even after having a fair degree of success in her life, The Sagi woman does not feel satisfied and something deep within them does not let her rest.

### Health

- You generally have good health and vigor. However there may be various problems related with stress.
- As Sagittarius sign governs the hips, thighs and the loins, you can face problems connected with this region. Fractures, pains in joints and swellings in this region are also not ruled out.

### Money

- You will generally start your career in some kind of service but due to your nature that does not let you be a subordinate for long, you will move over to self-employment quite soon.
- A Sagi woman makes good money and property in your lifetime and shall be considered a successful and wealthy person.

### **Romance And Sex Life**

- You have a great desire to be in romantic setting, but you do not let your partner understand this. He will not be able to quite figure out your romantic nature as your outer crust is very cool.
- In addition to this you say certain things out of your honest nature, which will dampen your lover's desire. This may lead to lots of crying though no one will understand you even then. But still, due to your glamour and beauty many men will be interested in you and you shall have a fair share of men.
- The catch here is: that if you learn over the years on 'how to handle men' - then you can have a love life, which will make any woman jealous of you. You can easily win over any man and in fact tame him. Once he understands your sincere and honest nature he will be glued to you for a lifetime.
- You will have a great sex life and shall want more of it all the time. You will prefer outdoor settings.
- Thighs and upper leg are your hotspots.

### **Marriage**
