

Student assessment

Introduction to Spatial Development Planning

Student assessment in the Introduction to Spatial Development Planning course will result from the project. The project can be either Bibliographic or Empirical.

The project title definition should be completed by 15.11.2023.

The project will be presented and a Student Paper will be delivered. Each presentation will not exceed 15 minutes. The final Student Paper will be delivered by 10.01.2024 by email to the professors.

Literature analysis assignment:

The paper should be in the range of 2500 – 4000 words. It will involve the analysis and discussion of at least one scientific work: (a) either from the proposed ones (found in the course repository), (b) or chosen by the student in consultation with the professors.

Empirical assignment:

The paper should be 2000 – 4000 words enriched with the necessary documentation (maps, tables, diagrams, etc.). It will concern issues that: (a) were presented in the context of the lectures, (b) either developed in the proposed papers (found in the course repository) (c) or are of the student's choice in consultation with the professors.
