## Course Title: Learn from Stakeholders

Name of trainer: Afroditi Kofopoulou

### Aim / Purpose

The course “Learn from Stakeholders” aims at introducing the students to the Agricultural Sector and to the “World of Eco Farming”. The purpose of the course is to transfer to young people the knowledge of good practices and success stories that have been proven to work well and produce good results and to recommend them as a model.

### Objectives

*Through the course students will:*

- Understand the meaning and the role of best practices and success stories.
- Learn about the required criteria in order to determine whether a practice is a good practice.
- Obtain knowledge regarding GAP - Good Agricultural Practices, methodology, benefits, implementation, etc.
- Get to know about the GAP - Good Agricultural Practices Agricultural in Greece.
- Be informed regarding local and national success stories and get inspired by them.
- Gain knowledge and broaden their horizons regarding best practices and success stories in the fields of Agriculture and eco farming.
- Experience how theory meets practice.

## Course Content Options

### Good Practices

- Definition of Good Practice
- Criteria

### GAP – Good Agricultural Practices

- Concept & Objectives
- Pillars
- Beneficiaries and advantages
- Implementation

### Meet Local Realities

- Local examples of success

### National Success Stories

- In the field of Agriculture
- In the field of Eco Farming

## Methodology

### *Teaching and Learning Methods*

The course “Learn from Stakeholders” is based on the principles and learning methods of non-formal education and informal learning and includes a wide range of interactive, participatory and creative activities.

The course includes theoretical and experiential training methods, during which students will be invited to actively participate in presentations, video projections, team-working activities, open group discussions and evaluation.

## Teaching Materials

- Articles
- Books
- Videos
- Previous knowledge
  
- Slides
- Projector
- Flip chart paper
- Pens and markers
- Sticky Notes

## Teaching - Student Assessment

### Oral Open Group Discussion

- Feedback
- Evaluation

At the end of the course, students along with the educator will participate in an open group discussion where they will give feedback on the concluded activities and the learning outcomes. The educator will pose questions, will resolve any queries and will provide clarifications to the students if needed.

## Flow Chart of Teaching

The duration of the course will last for three (3) hours. The educator will manage time and keep balance between the slides/presentations, the videos and the open-group discussions.
